WILLIAM T. WALSH, CLERK

Complaint

13-4375(KM)

U.S. District Court  
Janet Palmer-Carr

vs

Dept. of Veteran Affairs

(United States of America 38 USC Sec 1346b-2671)

Janet Palmer-Carr - 126 d Boyden Ave.  
Maplewood, NJ 07040.

Department of Veterans Affairs 810 Vermont Ave.  
Washington, DC 20420

I am a 100% Service Connected  
disabled Veteran diagnosed with Post  
Traumatic Stress Disorder (PTSD).

The VA medical Center in East Orange  
doctors misdiagnosed me w/numerous  
GI Disorders. I initial lawsuit papers  
believed to be stolen from VA. ~~on file~~

Also psychologically which I believe  
was done for fraudulent reasons. - (VA <sup>too</sup>)

They also caused medical & dental  
"mistakes" which I don't believe were  
mistakes. They have been blocking &  
interfering with my outside medical and  
dental care and refuse to pay for any  
treatment or the outside. I am  
currently paying for treatments out  
of pocket and was forced to utilize  
ex husband's insurance until I  
was told I'm not authorized to do so.  
Filed previous lawsuit against VA with:

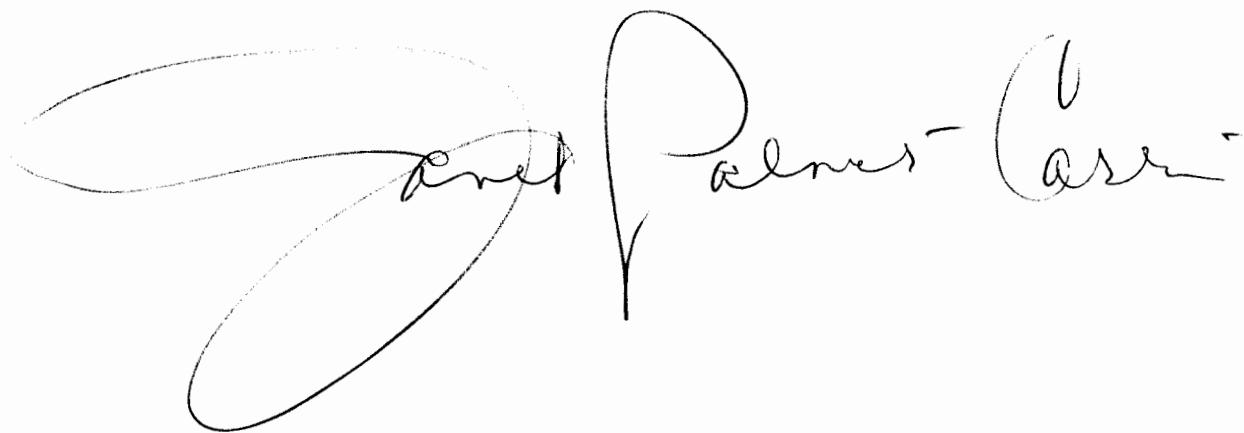

Dept of Veteran Affairs - in Brooklyn  
& Washington DC. no response to date,  
plan to file in US District Court.

So I am now filing this request of  
more monetary damages due to  
ongoing interference & suffering and

New medical discovery.

See Attachments

I would like the Court to rule  
in my favor for \$ 55,000,000.00 (FIFTY-FIVE  
MILLION)  
for all future medical & dental  
treatment to be paid for & that the  
doctors/dentist responsible to be relieved  
of there duties so they are not  
allowed to do what was done to  
me done to anyone else.

  
Janet Palmer-Carey

From Ms. Janet Denner, CCR (P0502)  
126d Boyden Avenue  
Maplewood, NJ 07040  
973-508-8383

To whom it may concern: (Mr. Max Shemtob),

I was given this form to fill out on my own. I was told I had 90 days to do so and thought that time had passed until I recently read the back of this form which stated 2 years. I have made several attempts to get help w/ the patient advocate. Mrs. Debra Anderson James, who gave me this form, ~~and~~ but unfortunately I've been unsuccessful. Due to the nature of my disabilities I am attempting to complete this in spite of my disability. I have attempted to get legal representation on so many occasions and I have been unsuccessful to date because I believe the VA's sabotaging all my efforts just like they're sabotaging my efforts to get dental treatment although I was authorized for free basis.

Every dentist I attempt to get the VA dental clinic creates some kind of problem or denies them. The Only dentist they seem to want to approve/or <sup>has approved</sup> is one who wants to charge \$30,000 for treatment and who is not very good, thus my reason for not attending that dentist. They keep telling me it cost too much at other dentist yet there willing to pay \$30,000 for a dentist of there choice. My dental problems are worsening & I need help. This problem before I'm reduced to dentures, which seems to be just fine w/ them. I hope ~~you~~ I have furnished you w/ all necessary information if I have not I will try and do so. I was recently diagnosed w/ ulcerative colitis from an outside doctor. I no longer get my care from the VA. My GI problems & dental problems are of my main personal injury problems. + blood pressure medicine gives that almost got me killed, & wiped out my memory. I couldn't remember my sons birthday his age my age etc. I thank you.

Sincerely

Janet Palmer-Carr-(P0502)

Subj: Request for Reconsideration /Appeal.

Janet Palmer-Carr. v. Dept of Veterans Affairs  
REF: 630-04 /02m United States of America 28 USC  
Section 1346(b + 2671)

Additional Information to Appeal.

To Whom It May Concern:

In an effort to send off the appeal before the deadline, Some information I believe to be important was left out of the appeal.

I need to advise you that I suffered for more than 5 years. My condition progressed

Therefore, I am forced to file this on my own,  
with no legal experience, which should be taken  
into consideration.

The parties involved must be held accountable  
for their negligence. All of my suffering could have  
been avoided had I been given the proper care &  
treatment. I believe there is no excuse for  
allowing me to suffer, as long as I was made  
to suffer when I was treated by doctors who  
supposedly specialized in diagnosing & treating the  
conditions for which I was finally diagnosed with.  
I fail to understand how doctors, with many  
years of experience, who took an oath to help  
heal, could possibly make the kind of errors in  
diagnosing and the ~~treatment~~<sup>ment</sup> of my condition, that is  
if they really were errors. (I'm not a doctor but I  
do know that most of what was done or not done  
to me should have been avoided. I still suffer  
as a result of their negligence, Not just  
physically but mentally as well. I find it  
difficult to trust any doctor and w/ good reason.  
My condition would have never gotten to  
this point had they treated me properly.  
Imagine being diagnosed with conditions you  
didn't have and given medicines that  
treat those conditions, which were causing more  
damage.

(3)

Imagine going to the Emergency Room (VA) in pain, on numerous occasions and being told; its all in your head, Its <sup>psychological</sup> ~~psychophysiological~~, there's nothing wrong with you and them being sent a psychiatrist over to treat you rather than a medical doctor to treat your real NOT imagined pain.

Imagine living your life in the bathroom, suffering and wishing that God would take you out of your pain & misery, praying for death, or trying to enjoy a walk outside, to discover that you can't get past the front door, or that you can't travel too far, or that you have to turn around & go back home because you have to go to the bathroom or having had numerous embarrassing accidents outdoors or not being able to remember your child's age or your own or other significant memories, or not being able to smile, to look someone in the face with confidence instead of shame. or suffering in pain with teeth that needs to be replaced or not being able to have the kind of personal life you would love because of these problems, knowing they could have and should have been prevented. Wondering if you have cancer.

(4)  
I have not been back to the VA for treatment of any kind, even when it's been made difficult for me to get treatment out here, because the VA means pain & suffering to me. There's no more trust or confidence in the Doctors or my care. I would & could never give them the opportunity to do this to me again. I'm not even allowed proper, stress-free treatment out here. I requested that all my medical & dental treatment be paid for on the outside and yet I've had to use my Ex-husband's BCBS insurance after being told I'm not entitled; therefore I believe, he should be reimbursed as well as the insurance company for any and all expenses paid out by them and of course I repaid for <sup>what</sup> ~~for~~ medical & dental treatment as well as co-pays.

Unfortunately the Fee-basis program has not worked out for me because the VA would not approve treatments. A dentist did not want to participate or was discouraged from it.
